Finding Justice for Changed Lives

Caesar and Napoli, P.C. Attorneys at Law

The law office of Caesar and Napoli, P.C., turns the notion of "David versus Goliath" on its head. No longer underdogs, injured individuals and their families pursuing significant awards for damages enjoy the legal firepower they need to face well-financed, formidable defendants.

"The best representation requires a great deal of time and money during discovery," explains the law firm's founding member, James Napoli. "The average family involved in one of these cases rarely has the necessary resources. We do. We put our clients on an even playing field."

Caesar and Napoli is recognized as one of New York City's most outstanding personal injury law practices, with numerous seven- and eight-figure verdicts and settlements. The firm has a reputation for taking on clients others turn down. Painstaking discovery by attorneys whose practice is dedicated exclusively to injured victims often reveals details overlooked by less experienced or less diligent attorneys.

"Obtaining justice for injured victims is our passion, not a sideline."

— James Napoli

"Obtaining justice for injured victims is our passion, not a sideline. We never accept a case unless we are convinced it has merit and are fully committed to the best interests of the client. We won't shortchange a case by encouraging a quick resolution that undervalues the long-term costs of the injuries. We roll up our sleeves and meticulously search for information that will help us in trial, including from sources that are typically ignored. We also retain the experts needed to establish the facts of the case irrefutably. In most cases, proper discovery can help us avoid a trial, but we won't hesitate to argue before a court if that's what it takes to get the award our clients deserve," explains Napoli, one of The National Trial Lawyers' "Top 100

Trial Lawyers" and a 2012 Super Lawyer®.

Caesar and Napoli has been responsible for obtaining many multimillion-dollar recoveries in seemingly unwinnable cases. One family was told there was little hope of winning compensation for their 18-year-old son, who was left paralyzed after his car slid off a poorly maintained city road. The City of New York claimed there were no records demonstrating the City had previous knowledge of the road's dangerous conditions. The dogged perseverance of Caesar and Napoli resulted in the discovery of concealed documents revealing the city's negligence in maintaining the dangerous stretch of road. The young man obtained a \$5 million recovery. Recently, Napoli was asked to serve as trustee for the man.

"We form a very close personal bond with our clients, and it lasts long after their case has come to an end," says Napoli. "We never take their trust for granted."
